Office Action Summary	Application No. 10/707,379	Applicant(s) KNOWLTON ET AL.	
	Examiner Sarah E. Husband	Art Unit 1746	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election of Group III (claims 30-43) in the reply filed on 2/9/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Specification

The disclosure is objected to because of the following informalities: paragraph 35 labels the belts 54,60 and should be belts 56,60. There are also numerous typographical/grammatical errors throughout the specification which should be corrected but are too numerous to list.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless – (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 31-35 and 38-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Poitevin (US Patent No. 4,807,319).

Poitevin discloses a cart washing apparatus having a treatment station (12), transport system (22), entry, exit and pathway extending between (Fig. 3), and a molded structure (26). Poitevin also describes the molded structure comprises an enclosure defining a portion of a

Art Unit: 1746

pathway and a liquid disinfectant structure (36) which would inherently have some type of supporting structure, such as a hanger, to support the elevated position of the nozzles (37). Poitevin further disclose a reservoir (34) and a baffle (29) for preventing disinfectant from moving beyond a defined space. Poitevin also discloses a dryer (air application structure) (50)(see entire document as well).

Claim 30 is rejected under 35 U.S.C. 102(b) as being anticipated by Ishikawa (US Patent No. 5,901,398).

Ishikawa discloses a vehicle washing apparatus with a transport system (Fig. 2, 3) having an entrance and exit, and also a molded structure (74; col. 6, ll. 20-25). Although the vehicle is not necessarily a cart, the structure shown by Ishikawa would be fully capable of washing a cart, which is the intended use of the apparatus.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 36, 37, 42 and 43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Poitevin in view of Morris (US Patent No. 6,427,707).

Poitevin discloses the apparatus shown above in the 102(b) rejection. Poitevin does not specifically disclose the inlets/outlets of the blower. Morris discloses a blower with inlets/outlets which are directing air to the shopping cart. At the time of the invention, it

would have been obvious to one of ordinary skill in the art to modify Poitevin with Morris for the benefit of properly drying the carts.
